

ENVIRONMENTAL STATEMENT

Van der Valk Hotel Rotterdam-Blijdorp considers it possible to spare the environment from its operations as one of its main objectives. Controlling the environmental impact and reducing the environmental risks are a primary responsibility of both management and each employee of Van der Valk Hotel Rotterdam-Blijdorp.

Concern for the environment will be a structural part of and consistent with other business objectives. All employees are obliged to perform their duties in accordance with established procedures and the associated policy of the company, this also constitutes a natural way of behaving.

The policy of Van der Valk Hotel Rotterdam-Blijdorp is:

- To supply services that meet and anticipate the expectations of visitors.
- To protect the environment as well as ensure the safety and health of our employees, visitors, suppliers and the public.

In accordance with this policy Van der Valk Hotel Rotterdam-Blijdorp has implemented the following rules:

- Compliance with the laws and regulations pertaining to the environment.
- Recognition of the importance of the environment in both corporate and commercial matters.
- Compliance with the laws and regulations relating to environmental matters.
- Training and education of each employee with regard to their personal responsibility towards our environmental policy.
- Reduce any personnel obstacles in order to improve the performance of this policy.
- Continuous monitoring of any progress in the environment with regard to the implementation of this policy.

Finally, our company's objective, as a result of the policy is to minimise the production of (residual) waste and any adverse impact on air, water and soil resulting from the execution of our business.
